IQ PREMIUM SPEED

is the new reference for **HIGH SPEED MACHINING** in all Japanese machines. Developed to be a **PERFECT MATCH** with standard machine parameters. Significantly **INCREASED CUTTING SPEED** and better cutting parallelism (straighter cuts), improved **SURFACE** finish compared to most other high quality wires.

- FREE FROM PARAFFIN
- EXTREMELY CLEAN WIRE SURFACE
- IMPROVED ACCURACY

Cutting speed is about 35% higher compared to **IQ PREMIUM BRASS**.

Best possible Ra ~0.20 μm

IQ PREMIUM SPEED
STANDARD BRASS WIRE
